katrinamacgregor.com
Los Angeles, CA

Design leader and builder with 15+ years of experience and a foundation in engineering. Bridges interaction design, technology, and storytelling to make complex systems feel natural and intuitive. Sketches ideas in code, and takes concepts from prototype to shipped consumer hardware and software products used by millions worldwide.

EXPERIENCE

Apple Inc.

BEATS ELECTRONICS, CULVER CITY CA

Human Interface Design Manager / Nov 2022 - Jul 2026

- Head of Human Interface design for Beats hardware products (audio and accessories) and companion software across the Apple and Android ecosystems, defining business cases and product concepts with senior leaders and executives through production
- Owned end-to-end user experience from definition through launch for 7+ shipped products and 20+ hardware and software concepts, including Beats 360 and Powerbeats Pro 2
- Led Android experience and visual design for the Beats App, serving 50% of Beats customers with 10M+ Google Play downloads across 30+ languages
- Built and scaled a distributed Beats UX organization; hired and mentored designers across levels, and shaped how the organization operated as the Beats portfolio doubled
- Defined a unified design system spanning tones, LEDs, flows, and app UI, with accessible configurations for diverse sensory needs in partnership with Apple's accessibility team
- Defined interaction strategy for new categories and features, including USB audio and heart rate monitoring, in partnership with Apple HI and Software Engineering

Human Interface Designer / Nov 2019 - Nov 2022

- Designed and built functional prototypes and apps in SwiftUI for Beats and Apple products including iPhone, HomeView, Apple TV, Apple Watch, and Apple Home
- Created scalable design systems and reusable narrative tools to streamline concept evaluation, executive communication, and engineering collaboration

UX Engineer / Apr 2018 - Nov 2019

- Architected UX frameworks and led front-end development of 8+ internal tools servicing localization, QA, firmware, and operations teams

The Walt Disney Company

DISNEY INTERACTIVE, GLENDALE CA

Lead Software Engineer / Sep 2017 - Mar 2018

- Established and led a UX engineering and internal platform development team that built a modular and customizable React component library adopted across internal products

Senior Software Engineer / Nov 2015 - Aug 2017

- Served as frontend technical lead for 10+ developers redesigning shopDisney.com
- Built performant reusable game engines and interactive experiences using JavaScript, SVG, Canvas, and Phaser for Disney brands and strategic partners

Web Application Developer / Mar 2013 - Nov 2015

- Developed responsive web apps for disney.com, starwars.com, and marvel.com

THE DISNEY STORE, PASADENA CA

Creative Designer / Mar 2012 - Mar 2013

- Redesigned DisneyStore.com; drove +24% revenue growth year over year

DISNEY CONSUMER PRODUCTS, GLENDALE CA

Graphic & Web Designer / Jul 2011 - Feb 2012

- Oversaw Learning & Development site, branding, and marketing materials
